Remove Sea Water

2100-BOS-T1 SYSTEM

PATENT PENDING

ADVANTAGES

- > Low cost and very easy to use.
- > Lubricates wire ropes at speeds of 500 Ft./ Min.
- > One brush size covers a large range of rope sizes. Eliminates the need for a rubber seal for every size of wire rope.
- > Wire rope deformities can be run through the unit.
- > Wire ropes can run through the unit at any angle.
- > The same pump can fits all sizes of containers from a drum to a pail.
- > Air jets dry the cable before lubrication.

The New CORELUBE 2100-BOS System is designed to apply STRAN-CORE Lubricant.

STRAN-CORE is an advanced Corrosion Inhibitor with Extreme Pressure and Anti-Wear Properties, specifically formatted for Wire Ropes and EM Cables.

- > Grease-like protection in a low-viscosity form.
- > Clings to surface and penetrates inner strands for excellent protection, inside and out.
- > Long-lasting protection-even in harsh salt air environments.
- > Nontoxic
- > Non-flammable-no solvents
- > Extreme Pressure & Anti-Ware Protection (4 Ball Weld Point: ASTM D-2783 -- 400 kg)

STRAN-CORE lubricant is sold directly from the manufacture.
